

THE REALITY SHOW SEASON 11 | FEBRUARY 2011

PASTA CLASS
PART ONE
OF A TWO
WEEK SERIES

Scorpio is a seer and scientist, a compelling amalgam of beady-eyed pragmatism and dewy-eyed mysticism. Shaped by Pluto, she is competitive, ferociously focused, resourceful, decisive, staunchly loyal and very persuasive. Cross her and she's a cunning, envious, vindictive fiesty from hell. She is a very stylish dresser indeed, reveling in dramatic hats and theatrical accessories. She understands the impact of Mars's powerful colour, black and red, particularly combined. Scorpio often looks as if she has consumed herself for some great role in the secret drama of her own life.
